The idea's in my mind. The phone is tapped, the door is tagged The future is clear. The past is here. Is it now? I'm not quite sure. But you know, I can feel the temperature, you know, rising, you know, as the days go by. Another world is breaking through. If you're like me, I know you got a message. The machine is filled up with noise and I'm not here. I just don't want to see what it will be. So when they blow the whistle, when the alarms go off and she's running to the fire You better get your feet moving, get your feet moving 'Cause it's time to leave. It's time to cut. It's time to run. It's time to hide. It's time for the clock to tick. It's time to fall. It's time to break down. It's time for change. It's time for ice. It's time for brain. It's time to die. It's time for a new beginning. It's time to disappear. Let's go. (rock) Let's go. (rock) Let's go. (rock) It's time to go.
